

HEADLINES

MID TERM 1 | 2025/2026 ACADEMIC YEAR | ISAIAH 4:8

Important Information

On project days, our scholars should:

- ◆ Report to school at the usual time.
- ◆ Report to school with a change of clothes; school PE shirt or branded school polo shirt with jeans trousers and trainers.
- ◆ Bring along their gardening tools, as listed in the booklist.
- ◆ Bring extra water or snacks as required.

All personal items and materials must be clearly labelled

Transport & Logistics

Our mini volunteers will be transported to the Ghana Forestry Commission from school and should be back during the snack break with the school bus. Adjustments will be made such that in-class learning will still be on track. Transportation for this project will come at no cost to parents.

The Green Guardians Project: Growing Change Together!

Dear parents and guardians,

We are thrilled to announce that our students in Grades 5, 6, 7, and 8 will be embarking on an exciting community partnership with the Ghana Forestry Commission as part of our new environmental initiative — *The Green Guardians Project*.

This project aligns with our school's theme for the term, *Empowering Excellence through Collaboration*, as it provides our scholars the opportunity to work hand-in-hand with environmental experts, their peers, and the wider community to make a positive and lasting impact on our dear planet.

Passion for Excellence

Our school's motto, Passion for Excellence underpins our belief that education goes beyond the classroom. The Green Guardians Project will allow our students to:

- Build teamwork and leadership skills through meaningful collaboration
- Learn real-world lessons about caring for the environment
- Develop a strong sense of social responsibility, volunteerism and pride in contributing to national efforts
- Strengthen character qualities such as team-spirit, empathy, commitment, and perseverance.

What is the Green Guardians Project ?

From Wednesday, 22nd October to Friday, 28th November 2025, our scholars will volunteer at the Ghana Forestry Commission for an hour on Mondays, Wednesdays, and Fridays. During this time, they will participate in hands-on environmental activities such as:

- Tree planting and caring for young seedlings
- Learning about Ghana's forests, wildlife, and ecosystem
- Helping with nursery maintenance
- Working in small teams to develop creative sustainability ideas

Collaborating to Grow

We are so proud to see our learners stepping forward to make a difference. Thank you, dear parents and guardians, for your continued prayer, encouragement and support.

We are grateful for your support in this initiative. Together, we are nurturing young leaders who will not only think globally but act as well for the good of self, community, country and the world.

Thank you.
